Asp, Gly, Ala, Val, Gln, His, Pro, Leu, a stop codon,
Cys, or Phe.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   at location 21 stands for Lys, Asn, Arg, Ser, Thr, Ile, Asp, Gly, Ala, Val, Gln, His, Pro, Leu, a stop codon, Cys, or Phe.
                                                                                                                                                  at location 10 stands for Lys, Asn, Arg, Ser, Thr, Ile, Asp, Gly, Ala, Val, Gln, His, Pro, Leu, a stop codon, Cys, or Phe.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                    at location 13 stands for Lys, Asn, Arg, Ser, Thr, Ile,
Asp, Gly, Ala, Val, Gln, His, Pro, Leu, a stop codon,
Cys, or Phe.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          at location 14 stands for Lys, Asn, Arg, Ser, Thr, Ile,
Asp, Gly, Ala, Val, Gln, His, Pro, Leu, a stop codon,
Cys, or Phe.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           at location 22 stands for Lys, Asn, Arg, Ser, Thr, Ile, Asp, Gly, Ala, Val, Gln, His, Pro, Leu, a stop codon, Cys, or Phe.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          at location 19 stands for Lys, Asn, Arg, Ser, Thr, Ile,
Asp, Gly, Ala, Val, Gln, His, Pro, Leu, a stop codon,
Cys, or Phe.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    at location 23 stands for Lys, Asn, Arg, Ser, Thr, Ile,
Asp, Gly, Ala, Val, Gln, His, Pro, Leu, a stop codon,
Cys, or Phe.
                                                                                                                                                                                                                                                                                                                                                    at location 12 stands for Lys, Asn, Arg, Ser, Thr, Ilv
Asp, Gly, Ala, Val, Gln, His, Pro, Leu, a stop codon,
Cys, or Phe.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      at location 16 stands for Lys, Asn, Arg, Ser, Thr, Il.
Asp, Gly, Ala, Val, Gln, His, Pro, Leu, a stop codon,
Cys, or Phe.
                                                                                                                                                                                                                                                         stands for Lys, Asn, Arg, Ser, Thr, Il Val, Gln, His, Pro, Leu, a stop codon,
